

JOB | PhD positions @ Politecnico di Milano

We inform you about the opportunity of Ph.D. positions in data science and biostatistics, currently opened @ Politecnico di Milano, Italy. Specifically:

- 6 Ph.D. fellowships within the Ph.D. program on Data Analytics and Decision Sciences (DADS)
 - 1 Ph.D. fellowship within the Ph.D. program on Mathematical Models and Methods in Engineering (M3I)
- The fellowships are for a period of 3 years, starting from November 2019, and are related to the interdisciplinary research carried out by the Departments of Mathematics, the Department of Electronics, Informatics and Bioengineering, and the Department of Management, Economics and Industrial Engineering.

Research topics of the fellowships are the following:

- (M3I) - Machine learning for personalized treatment planning of radiotherapy”
- (DADS) - HEALTH ANALYTICS FOR REAL WORLD DATA AND PRECISION MEDICINE
- (DADS) - MACHINE LEARNING FOR DATA SCIENCE IN HEALTH ANALYTICS
- (DADS) - DATA ANALYTICS FOR IMPACT EVALUATIONS IN HEALTHCARE
- (DADS) - OBJECT ORIENTED DATA ANALYSIS FOR PRECISION MEDICINE
- (DADS) - HEALTHCARE RESEARCH AND BIOSTATISTICS BASED ON REAL WORLD DATA
- (DADS) - SUPPORTING PRECISION MEDICINE THROUGH DEEP KNOWLEDGE EXTRACTION

The interested candidates must apply to the Ph.D. call that is currently open online at the website <http://www.dottorato.polimi.it/index.php?id=53&L=1>, selecting “Topic Scholarships”.

The deadline for application is May 21th, 2019.

The PhD candidate will be employed by the Politecnico di Milano. Full details about enrollment conditions are available at the website <http://www.dottorato.polimi.it/index.php?id=53&L=1>. The working language is English.
